On-line Curriculum Presentation

ESU #11 Conference Room

April 3, 2008

8:15 a.m. – 3:30 p.m.

ESU #11 is hosting an on-line courseware vendor presentation day on April 3, 2008 for schools to see what options are available for them to meet their needs for Credit Recovery classes, Summer School, Accelerated Students and more. Each vendor will be different, but I anticipate that curriculum resources will be presented for grades 4-12. The four companies invited to participate have been requested by administrators for joint review and discussion. We encourage all schools to have a representative present to see what is available and to participate in the follow-up discussion. The ESU will be available to provide value to your school in the form of volume purchasing/licensing, being a distribution site, holding joint training and workshop options or in other ways that may evolve.

Pearson-NovaNet

Designed for grades 6-12, NovaNet is a comprehensive, online courseware system that meets countless needs. From delivering thousands of hours of research and standards-based, interactive curriculum, to integrated assessment and student management, NovaNet is an all-inclusive system that delivers a return on investment quickly.

OdysseyWare

OdysseyWare is a learning environment featuring media-rich curriculum for elementary, middle and high school students. OdysseyWare curriculum is broad in scope and rich in content using a dynamic, multimedia format to reach the tech savvy students of today. Because it is flexible and customizable, OdysseyWare can provide many solutions for your school. Schools that are using OdysseyWare say that it is a budget friendly solution to meeting student needs in many areas.

Apex Learning

Apex Learning is the leading publisher of digital curriculum for secondary education offering standards-based online courses in math, science, English, social studies and world languages. Accredited by the Northwest Association of Accredited Schools, Apex Learning digital curriculum solutions have been successfully used by more than 4,000 school districts to provide differentiated instruction to over a million students. With an expansive course catalog covering Advanced Placement, Honors, Core and Foundations learning tracks, Apex Learning meets the needs of a variety of programs including acceleration, credit recovery, remediation, alternative schools and distance learning.

A+ Learning

A+nywhere Learning System courseware program consists of extensive core curriculum content for grades K-12 as well as adult learners. Supported by an instructional management system, A+LS is delivered via the Internet or through a LAN or WAN. The A+LS courseware can provide countless solutions for districts. The courseware contains four fundamental components that allow educators to create and implement a complete learning solution. Assess, Prescribe, Instruct and Report.
